

November Sway Playground Update

Thank you to everyone who provided feedback to the playground improvement proposal earlier in the year. We have listened to the feedback from the public and also from the Jubilee Fields User Group made up of the tennis club, football club, and cricket club, and have made changes. Although we cannot build in all the great ideas as we are financially and space limited, we have accommodated these ideas and made improvements where we can.

The key changes from the previous layout are:

- ☐ The agility trail has been replaced by a Wee-hopper that spins and bounces
- ☐ Somersault bars have been added
- ☐ The zip wire has moved further from the tennis courts, and this additionally allows us to locate the carousel closer to other toddler equipment
- ☐ The mushrooms and one springer have been removed in favour of an upgraded carousel
- ☐ The other springer has been upgraded to a multi user version which accommodates up to 4 children

I am interested in your views regarding the overall plan and also the options for the [zip wire vs large climbing frame](#) and two alternatives for the [toddler play tower](#) – see options on last pages of drawings.

Please provide your feedback on this latest proposal:

1. You can leave feedback here on Sway Hearsay
2. Come down to the play area to see the proposed layout drawings and provide your feedback on **Sunday 19th November between 10am and 11am.**
3. Email feedback directly to CllrButler@Sway-pc.gov.uk

Options

Zip wire or Climbing frame?

Zip wire (cableway) for ages 4 to 12. Approximately 19mtrs long in current proposed location.

Climbing frame for ages 6 to 12 (and adventurous younger children) with cargo netting climbing options. Wall climbing rises to 2.5mtrs, overall height is 2.8mtrs. Able to accommodate many youngsters at a time so more interactive.

Toddler Play Tower Options

Option 1: Younger option. Climbing frame for ages 1 to 6 with steps up, smaller slide, and talk tubes (2 flowers, one each side).

Available in different colours

Platform height 88cm.

Option 2. A more challenging unit suitable for children aged 2 to 8. Previous feedback asked for something to climb up and slide down. Includes musical bells, a play clock, and a fireman's pole.

Available in different colours

Platform height is 118cm.
